RIVAL FORCES ISSUE CLAIMS WIDELY APART

Managers Concede Only 443 Delegates to Roosevelt.

(Continued from First Page.) that Senator Root is not in such harnony with the purposes of the element that will be in control of the convention, as to make it possible for him to sound a harmonious keynote.

That the Vice President's Chicago trip has to do with this detail, has been videly surmised. One report is that he will lay before Mr. New some reasons why the national committee should go ahead with its plans and not worry about any disaffection with the program; the other, just as confidently held by other people, is that he is to urge that the arrangements committee withdraw the invitation to Senator Root, in such a manner as will avoid a clash and leave a situation diplomatically possible of adjustment to a compromise on this particular detail.

Tet another view is that the Vice President's trip is in regard to the Lorimer case. The Illinois Senator is ill, and consideration of the resolution to unseat him has been held off because of his wish to be present. If this case were out of the way, it is believed arrangements could be made for an adjournment of Congress before the national conventions. The Senate is involved in a sharp difference of opinion whether adjournment is desirable.

Some of the conservative, anti-Roosevelt people are credited with entire willingness to have Congress stay right here and at work. They haven't any great interest in the Chicago convention, having been left off the delegations in their State and left with little of justification for mixing in the affair.

Then there is the feeling, among some of the bitter anti-Roosevelt people, that the absence of the Congressional membership would make the convention a good deal less of an affair. It would be strongly suggestive of a real split in the party if its leading public figures were absent while the national convention, a good deal less of an affair, it would be strongly suggestive of a real split in the party if its leading public figures were absent while the national convention. will lay before Mr. New some reasons why the national committee should go

Commissioner Rudolph on his return to the District building was asked his opinion of the Improvement.

"Bully," said the president of the board. "Even the gentlemen who were incarcerated in them had to admit that they were comfortable."

The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock mar-kets. First deed of trust notes (first mort-gages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of individuals or cor-porations for their stability, and are exempt from taxation as personal property. We can from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning Loans and Investments."
